

Sirs: Here's a chance to show the US is also progressive. Give " no Code" Techs Tech+ privileges immediately! This would help against the Freebanders on 10,give the Amateur equipment and antenna, etc. market a boost, and give Techs a real taste of DXing (6 is rough for beginners). Tests would have minimal changes ( scratch out "with code")It would be easier to keep track of Techs and eliminate the Tech+ for ever.Techs with CW could use their CW privileges. Leave everything else as is. Thanks. Tom Warnock WB8WIV an old Extra.
